### Health Sciences Addictions Interest Group (HSAIG)

- **Tent City Collective Campaign**
- **All In for Washington**
  - [http://www.healthequitycircle.org/seattle.html](http://www.healthequitycircle.org/seattle.html)
  - [https://www.facebook.com/healthequitycircle/](https://www.facebook.com/healthequitycircle/)

The goal of the group is to increase cultural competency amongst healthcare professionals on issues of drug use and abuse, increase understanding of the science behind addiction, and develop strategies and approaches for safely prescribing medications to patients that also use recreational drugs. The interest group will also have a broad, interdisciplinary lens, discussing the epidemiology and public health impacts of addiction as well as exploring the impact of laws and local policies and the ways in which physicians can shape policies.

- **Dr. Joseph Merrill**
  - joem@uw.edu

- **Tim Kelly**
  - Shiv Bhandari

### Infectious Disease Interest Group (IDIG)

- **The ID Interest Group exists to educate interested students on the field of Infectious Diseases as a career and on various topics in the subject of Infectious Diseases. We also aim to provide students with the opportunity to interact with practicing Infectious Disease physicians.**
  - [https://www.facebook.com/groups/569527439780737/?fref= nf](https://www.facebook.com/groups/569527439780737/?fref=nf)

  - Sara Drescher, MS2
  - Yanni Chang, MS2
  - Tara Ness, MS4

### Internal Medicine Interest Group (“The Osler Club”)

The Osler Club, named after Sir William Osler, is an internal medicine interest group for University of Washington School of Medicine students. Its purpose is to provide students with the opportunity to learn about internal medicine, both as a primary care and subspecialty field. In addition, club meetings expose students to medical topics typically encountered by internists. The club also provides time to socialize and have fun.

- **Dr. Doug Paauw**
  - dpaauw@uw.edu

| Refugee and Immigrant Health (RIH) | The goal of this interest group is to fill in the gap in our education in discussing healthcare implications on refugee and immigrant health. Understanding many shared health factors that refugee and immigrant populations face will allow us to not only be better physicians, but also provide adequate care for our diverse communities. RIH will accomplish its mission by providing opportunities for health science students to connect with clinics and physicians serving refugee and immigrant communities, host speakers to present on topics and experiences in both serving these communities, create workshops that address the health disparities and nuances in care for these communities, and connect students with various organizations and faculty that study and serve refugee and immigrant communities. | Dr. Alexandra Molnar
