

OPTOMETRY SERVICES

Optometry services include eye exams, vision checks and screenings. Our optometrists also provide prescriptions for corrective lenses.

Our patients also have access to the UW Medicine Eye Institute, one of the nation's premier eye and vision science centers, should the need for ophthalmologic care arise.

Staff

Select UW Neighborhood Clinics locations have licensed optometrists practicing in the clinic, conveniently located alongside the primary care team. Patients enjoy going to the same clinic location for their primary care as well as their eye care. Eyes on James is staffed by a team of optometrists, licensed opticians, ophthalmic technicians and patient services representatives.

Our clinicians have been recognized by their peers as “top optometrists.” They perform complete eye exams, refractions and fittings for hard and soft contact lenses.

- Claire T. Angel, O.D.
- Susan M. Dini, O.D.
- Nancy Ross, O.D.
- Tiffany Hollenbeck, O.D.
- James Toop, O.D., Ph.D.

Glasses and Contact Lenses

Eyes on James features a great collection of designer frames that makes it easy to find a look that is distinctly you. We have a wide range of designer frames including BCBG, Cole Haan, Ellen Tracy, Izod and Op. We carry regular and prescription sunglasses, reading glasses and fashionable accessories to highlight your personal style. We offer a wide selection for every price point. Contact lens wearers benefit from accurate, state-of-the-art technology that provides careful measures to ensure the best comfort and vision.

Insurance

We work with many vision insurance plans and will help you take advantage of applicable coverages. Prescriptions are accepted from any provider when written within the past two years. Please tell us about your insurance at the time of your appointment or purchase and we can help you verify coverage benefits and submit any forms.

Patient Care Locations

Optometry services are available in the following convenient locations: UW Neighborhood Belltown Clinic, UW Neighborhood Ravenna Clinic and UW Neighborhood Shoreline Clinic. In addition, our Eyes on James location is a full-service optical shop, offering a wide selection of designer frames as well as comprehensive optometry services.
