

UW Medicine

UNIVERSITY OF WASHINGTON
MEDICAL CENTER

UW MEDICAL CENTER is ranked as the top hospital in the state by U.S. News & World Report. In addition, the magazine ranks it in the top 10 nationally for cancer care and rehabilitation (joint program with Harborview).

Areas of Specialization

- Level IV neonatal intensive care unit
- Cancer care and blood and marrow transplantation
- Cardiac care, including advanced procedures, complex surgeries, mechanical circulatory support devices and transplantation
- Obstetrics, including high-risk care
- Otolaryngology, including head and neck surgery for treating diseases and disorders of the ear, nose and throat
- Radiation therapy
- Robotic-assisted surgery for gynecological oncology, urology, otolaryngology and general surgery
- Solid organ transplantation of the liver, kidney, heart, lung, pancreas and intestine
- Sports, spine and orthopedics care.

History

UW Medical Center opened as University Hospital in 1959 and quickly became a leader in healthcare innovation and standard setting for safe, high-quality patient care. In 2012, the 273,000-square-foot Montlake Tower opened with expanded space for oncology services, radiology and the Neonatal Intensive Care Unit.
