### Molecular & Cellular Basis of Disease
- Cell Physiology & Function
- Genes, Molecules, and Signaling
- Genetic Diseases
- Immune System
- Microbial Biology
- Infectious Diseases
- Inflammation & Repair
- Skin

### Ecology of Health & Medicine
- Human Form & Function* Pathology/Histology Pharmacology
- Human Form & Function* Pathology/Histology Pharmacology
- Human Form & Function* Pathology/Histology Pharmacology

### Invaders & Defenders

### Circulatory Systems (CPR)
- Cardiovascular System
- Respiratory System
- Renal-Urinary System
- Multisystem Fluid Balance

### Energetics & Homeostasis
- Metabolism & Nutrition
- Obesity & Diabetes
- Gastrointestinal Physiology
- Endocrinology

### MSK
- Musculoskeletal Systems: Anatomy & Function
- Rheumatologic Diseases

### Blood & Cancer
- Cancers
- Heme/Lymph

### Ecology of Health & Medicine (10/23/18 – 11/1/19)
**Themes**

### Ecology of Health & Medicine (3/19/19 – 3/21/19)

### Ecology of Health & Medicine (5/7/19-5/10/19)
**Themes**

### Spring Break (3/11/19 – 3/15/19)

### Break (3/1/19 – 3/5/19)

### Themes**

### Foundations of Clinical Medicine*

### Foundations of Clinical Medicine*

### Foundations of Clinical Medicine*

### Foundations of Clinical Medicine*

### Foundations of Clinical Medicine*

---

*HFF will include: Dissection, Prosection, Ultrasound, Embryology, Imaging, and Surface Anatomy

†Themes will include: Lifelong Learning, Health Equity, Diversity, Global, Population & Public Health, Ethics, Professionalism, Interprofessional Education (IPE)/Communication, Health Systems, Systems Improvement, and Social Determinants of Health

‡Foundations of Clinical Medicine will include: Immersion, Primary Care Practicum, Clinical Skills, and Hospital Tutorials.

§Ecology of Health & Medicine is required course content.

Approved UW Provost, April 4, 2018 – last revised, April 12, 2018

**Research Methods Course (6/24-8/16, 2019)**
- Epidemiology & Biostatistics
- Research Methods

**Independent Investigative Inquiry (Triple-I)**
- RUOP
- Literature Review
- Research
- Simulation Lab
- GHIP

**Mind, Brain & Behavior**
- Neuroscience/Neuroanatomy
- Neurology
- Neurosurgery/Trauma
- Sensory Systems
- Psychiatry
- Anesthesia/Pain

**Lifecycle**
- Aging/End of Life
- Reproductive System
- Developmental Stages of Life

**Consolidation & Transition**
- Foundations Capstone
- Prep for USMLE Step 1
- Research Completion
- Transition to Clerkship

<td>Neurology*,**</td>
</tr>
</tbody>
</table>

Clinical electives:

- Five, 4-week blocks of required electives.
- Additional time for research, board preparation, residency interviews, etc.

**Transition to Residency**

---

*The order of the blocks are interchangeable with the exception of Ecology of Health & Medicine and Transition to Residency.

** Neurology and Emergency Medicine may be taken during the six week elective block in the Patient Care Phase if prerequisites have been met.

§Ecology of Health & Medicine is required course content.
